REGIONS	us-east-1, eu-central-1
GENERATED	2026-07-24 00:00:00 UTC
TOOLCHAIN	prowler Prowler 5.36.0 — ok cloudsplaining cloudsplaining 0.8.2 — ok cloudfox cloudfox version 2.0.5 — ok hardeneks hardeneks 1.1.1 — ok kubescape v4.0.11 — ok
EVIDENCE	8 failing · 2 passing · 1 observations

All scanners and report rendering run locally. Public attack-surface observations require human validation and are not counted as failures unless CloudFox emitted an unambiguous risk signal.

CRITICAL FAILURES	HIGH FAILURES	MEDIUM FAILURES	LOW FAILURES	INFO FAILURES	PASS EVIDENCE	OBSERVATIONS

Executive summary

The assessment produced **8 failing findings** across 8 service areas. Immediate attention is recommended for 2 critical and 5 high-severity failures. 2 passing checks remain available as evidence; 1 informational observations require context-specific validation.

Priority risks

Highest-severity failures, ordered for remediation triage.

CRITICAL Root account has no MFA prowler root The account root user does not have MFA enabled. Remediation: Enable a hardware or virtual MFA device on the root user.	CRITICAL S3 bucket allows public access prowler arn:aws:s3:::acme-prod-assets Bucket 'acme-prod-assets' grants s3:GetObject to . Remediation: Enable S3 Block Public Access at the account and bucket level.
HIGH Privilege escalation path: DeployRole cloudsplaining DeployRole Policy 'DeployRole' grants iam:CreatePolicyVersion, iam:PassRole. Remediation: Apply least privilege; scope iam:PassRole with a condition.	HIGH Resource exposure: BackupRole cloudsplaining BackupRole Policy 'BackupRole' grants s3:PutBucketPolicy on . Remediation: Restrict permissions-management actions to specific resources.
HIGH Anonymous access bound to cluster role hardeneks prod-cluster/kube-system system:anonymous is bound via a ClusterRoleBinding. Remediation: Remove the ClusterRoleBinding granting access to system:anonymous.	HIGH Workloads should run as non-root kubescape acct 123456789012 prod-eks/2 affected resources Kubescape found two affected workload resources in the selected cluster. Remediation: Set runAsNonRoot and a non-zero runAsUser in the pod security context.

HIGH

Security group exposes SSH to 0.0.0.0/0

prowler

sg-0a1b2c3d

sg-0a1b2c3d allows inbound 22 from anywhere.
Remediation: Restrict ingress to known CIDR ranges or use SSM Session Manager.

MEDIUM

CloudTrail log file validation disabled

prowler

org-trail

Trail lacks log file integrity validation.
Remediation: Enable log file validation on the trail.

Compliance posture			
Control evidence grouped by mapped framework. This is technical posture, not certification.			
FRAMEWORK	PASS	FAIL	PASS RATE
CIS	2	6	25%
PCI-DSS	1	2	33%
NIST 800-53	0	1	0%
SOC 2	1	1	50%

SEVERITY	RESOURCE	FINDING
HIGH	DeployRole	Privilege escalation path: DeployRole Policy 'DeployRole' grants iam:CreatePolicyVersion, iam:PassRole.
HIGH	BackupRole	Resource exposure: BackupRole Policy 'BackupRole' grants s3:PutBucketPolicy on .

STATUS	SEVERITY	RESOURCE	OBSERVATION
info	MEDIUM	https://api.example.invalid	Public workload endpoint observed

SEVERITY	TOOL	CLUSTER / RESOURCE	FINDING
HIGH	hardeneks	prod-cluster/kube-system	Anonymous access bound to cluster role
HIGH	kubescape	prod-eks/2 affected resources	Workloads should run as non-root

Tool execution evidence

SCANNER	STATUS	RECORDS	VERSION	NOTES
prowler	ok	6	Prowler 5.36.0	
cloudsplaining	ok	2	cloudsplaining 0.8.2	
cloudfox	ok	1	cloudfox version 2.0.5	
hardeneks	ok	1	hardeneks 1.1.1	
kubescape	ok	1	v4.0.11	

Failure register

Compact register of the highest-ranked 8 failing findings.

SEVERITY	TOOL	RESOURCE	FINDING
CRITICAL	prowler	root	Root account has no MFA
CRITICAL	prowler	arn:aws:s3:::acme-prod-assets	S3 bucket allows public access
HIGH	cloudsplaining	DeployRole	Privilege escalation path: DeployRole
HIGH	cloudsplaining	BackupRole	Resource exposure: BackupRole
HIGH	hardeneks	prod-cluster/kube-system	Anonymous access bound to cluster role
HIGH	kubescape	prod-eks/2 affected resources	Workloads should run as non-root acct 123456789012
HIGH	prowler	sg-0a1b2c3d	Security group exposes SSH to 0.0.0.0/0
MEDIUM	prowler	org-trail	CloudTrail log file validation disabled
